

JOHN DHALE PERALTA

COMPUTER ENGINEER

Teresa, Rizal, Philippines | +63 993 581 0068 | john16dhale@gmail.com | <https://github.com/John16DhaleCpE>

OBJECTIVE

Computer Engineering graduate with a systems-level foundation in hardware and embedded design, transitioning into full-stack web development. Proficient in Next.js, TypeScript, React, and JavaScript, with hands-on experience building production-ready applications. Seeking to apply strong problem-solving skills and a builder's mindset to a development role, while continuing to explore AI-assisted development workflows.

EDUCATION

Bachelor of Science in Computer Engineering 2022 – June 2026
University of Rizal System - Morong Campus

PROJECTS

Sheep Disease Diagnostic System April 2026
Researcher

- Applied machine learning techniques to build a data-driven diagnostic tool for sheep disease detection, combining research, problem-solving, and intelligent system design for agricultural applications.
- Tech: Python, Deep Learning, Data-Driven Research

Personal Portfolio Website June 2026
Developer <https://john-dhale-cpe-portfolio.vercel.app/>

- Designed and built a responsive personal portfolio using Next.js, TypeScript, and Tailwind CSS with a custom dark design system, scroll-based animations, and WebGL visual effects to showcase projects and technical background.
- Tech: Next.js, TypeScript, React, Tailwind CSS, Web3form

Calcu-Noir Web Calculator June 2026
Developer <https://next-calc-john-dhale.vercel.app/>

- Built a functional web-based calculator with clean component architecture, applying TypeScript concepts (union types, generics, event handler typing) and refactoring for maintainability using named functions and proper state handling.
- Tech: Next.js, TypeScript, React

PROFFESIONAL EXPERIENCE

IT Support Intern (OJT) July 2025
Fusion CX (BPO Company)

- Assisted the IT support team in providing basic technical assistance to call center agents
- Supported troubleshooting of common system issues such as login access, application errors, and account concerns
- Helped escalate technical problems to appropriate IT personnel when necessary
- Observed and participated in daily IT support operations in a BPO environment
- Gained hands-on exposure to IT support workflows and corporate technical systems
